**2023** PRODUCT CATALOG

# THE FIRST FIFTY

A hundred years ago, in **1923**, visionary William A. McLean brought the world's first pneumatic pump airgun to life. McLean took his plans and a prototype to the manager of the esteemed Crosman Brothers Seed Co. and that's how the Crosman Rifle Company came into being. McLean's string of innovations made air rifles "capable of anything a powder rifle will do, and lots that a powder rifle will not."

In **1924**, the first Crosman lever model redefined the airgun. Its design pattern remains the basis for most American airguns made to this day! Accurate, powerful, and a joy to shoot, Crosman products soared to success, delivering "power without powder."

By **1929**, Crosman rifles came in .22 caliber, magazine-fed, repeating models.

These are some of the characters created in **1930** for The Crosman Rogue's Gallery contest by none other than Dr. Seuss.

In **1931**, we introduced CO<sub>2</sub> guns powered from a large central tank. These compressed gas models, accessible in Crosman Shooting Ranges, gave Americans an enjoyable way to (literally) release the pressures of the day.

Like the rest of the country, Crosman set fun aside during the war years. In **1942**, the O.S.S. — the agency that predated the C.I.A. — purchased 2000 silent Crosman rifles for use in espionage missions. Scuttlebutt had them deployed across Malaya, India, and Burma, but the spies remain tight lipped.

In **1954**, Crosman again upended the industry with the release of Powerlets®, disposable CO<sub>2</sub> cylinders that held 50% more charge than the kind used for carbonation. Model 150 and 157 single-shot pistols were the first airguns to use these Powerlets for "year 'round shooting fun." A year later, fine-tuned improvements lifted the Model 160 into becoming one of the most respected and popular airgun designs of all time.

Crosman — and its reputation as the go-to source for the pure joy of shooting — kept climbing higher. BB guns entered the line-up in **1958**, as did spear guns. Yep, spear guns! Technological innovations increased airgun power, caliber, magazine size, and accuracy.

The 1960s ushered in a wave of innovation and growth, earning Crosman President Kennedy's "E" award for Excellence in Exporting.

**1966**, was the year we introduced the unstoppable Pumpmaster 760.

Another '60s innovation was the Crosman Stop-N-Shoot in-store pellet gun demonstrator.

# THE SECOND HALF OUR FIRST CENTURY

## LIFE, LIBERTY, AND THE PURSUIT OF PERFECTION

Here's our sales team in the **'70s**.  
*Man, we were cool.*

Crosman has leveraged its unique ability to produce *power with air* into other technologies besides just airguns. We were at the leading edge of what would become a cultural obsession for years to come: paintball. Starting in **1986** with the introduction of the sport's favorite side arm, the PGP, and first paintball rifle, the KP-3, Sheridan Paintball eventually morphed into Game Face Paintball, all Crosman brands. We even owned a pro paintball team, the Detroit Thunder.

In **1987**, Crosman teamed up with Olympic gold medalist Ragnar Shanaker to design a world-class Match pistol. In its first year of international competition alone, athletes using the Crosman/Shanaker Match Pistol won three Gold medals and a Silver medal.

The **'90s** saw the beginning of Crosman's expansion into global markets. Our brand is now synonymous with *air power* everywhere in the world that airguns are sold.

The introduction of break barrels (aka springers) boosted enthusiasm for the use of airguns for small game hunting. Crosman entered the fray in **2002** and has led the charge in advancements in the technology ever since.

The next hill to climb was Airsoft, and man did Crosman climb it. Starting in **2003** with three pistol kits, Crosman would quickly dominate the category, and still do to this day with a vast and constantly growing assortment of airsoft rifles, pistols, and accessories under our Game Face Airsoft brand.

In **2006**, the Crosman Custom Shop was introduced. At [crosman.com](http://crosman.com), you can design your own airgun by choosing from an assortment of grip, trigger, barrel, frame, and optics options. You can even have your name engraved on the barrel.

Crosman redefined the break barrel in **2010** with the invention of the Nitro Piston, which replaces the standard break barrel spring with a nitrogen gas piston. This new technology reduces noise by 70%, and increases accuracy by eliminating the jerk of the decompressing spring.

The break barrel evolution continues today with Crosman's Mag-Fire multi-shot technology.

In **2020**, Crosman's already industry-leading competition rifle, the Challenger received a major overhaul. Having already been converted to PCP in 2009, it now features a sleek new look, and continues to win competitions as the airgun of choice for the U.S. Military JROTC programs.

**This decade** has gotten off to a truly exciting start with an explosion of mind blowing full auto BB guns that are sending shockwaves through the airgun world. What a fantastic way to close out our first one hundred years.

# 362

100 YEAR EDITION

In commemoration of the Crosman centennial, we're releasing a special limited edition 362. This versatile single shot, bolt-action air rifle is one of our favorites, and a fresh take on the classic variable pump platform. With it's handsome Turkish walnut stock, it's perfect for skill advancement, small game hunting, critter control — and showing off your devotion to air-powered awesomeness.

## 362 100 YEAR EDITION

### Single-Shot, Variable Pump Pellet Rifle

- Each 100 Year Edition 362 is part of a limited run of 2,023, only available through [crosman.com](http://crosman.com) while supplies last
- Special edition Turkish walnut stock, with embedded metal 100 Year badge
- Compact frame with steel breech, brass bolt and trigger
- Single shot, variable pump controlled velocities up to 800 fps
- Fully adjustable rear sight
- Ideal for those transitioning into small game hunting

Model C2023      .22 cal.      800 fps

# LEGACY

100 YEAR EDITION

A century of air-powered awesomeness is quite a legacy — and Crosman has a Legacy for you, too.

The limited edition 100 Year Crosman Legacy 1000 features an all-weather synthetic stock with gold accents as a special 100th anniversary gift for us all. This is our most advanced single-shot, variable pump air rifle and it offers you next level power and performance. It features a built-in 850 BB reservoir, rifled steel barrel, fiber optic sight, and crossbolt safety.

As a celebratory bonus, every 100 Year Legacy 1000 comes with one of 10 special 100 Year pellet tins, each commemorating a decade of Crosman. The full set of commemorative tins are available only at [crosman.com](http://crosman.com).

## Legacy 100 YEAR EDITION

### Variable Pump BB/Pellet Rifle

- Dual ammo (BB/.177 cal. pellet)
- BB velocity up to 800 fps
- Pellet velocity up to 1000 fps
- All-weather synthetic stock
- Fiber optic front sight

Model CLGY1000-100YR

# FULL AUTO

## ST-1

### Full or Semi-Auto BB Rifle

Welcome to the future of air power. The ST-1, a modern full auto tactical BB rifle quickly converts into a pistol. Bullseye far-off targets with its butt stock and barrel extender attached, or remove them for close- and mid-range pistol action.

The ST-1 fires in semi- or full auto and breaks down smoothly so you can pack it up in seconds. It boasts a feature set that unleashes the full-on fun of full auto, including an integrated, quick-reload, 25-round drop magazine with a high-capacity reservoir (400 rounds), and room for two Powerlet CO<sub>2</sub> cartridges.

Model CFASTIX

**New!** Now available in semi-auto.

Model CSAST1

# FULL AUTO

## Full Auto AK1 Full Auto BB Rifle

Switch from semi to full auto and its dual CO<sub>2</sub> Powerlets will fling 1400 BBs-per-minute at 430 fps. This modern take on an all-time classic comes with a 28-round removable, spring-fed magazine, an AK-compatible pistol grip, and a foldable/adjustable 5-position butt stock to give you a full-on AK experience. That's power without powder! Added blowback action equals a level of fun that only a full auto BB gun can provide.

Model CAK1

## Full Auto R1 Full Auto BB Rifle

Maximize backyard fun with the Crosman Full Auto R1 tactical BB air rifle with full and semi-auto action, fueled by two 12-gram CO<sub>2</sub> Powerlets and a 25-round drop magazine. Each R1 rifle features an AR-compatible pistol grip and buffer tube (with removable sleeve), an adjustable stock, plus a quad rail forearm for endless accessory mounting. You can get your own Full Auto R1 in black, with a flip-up sights [Model CFAR1B] or in flat dark earth, with a red dot sight [Model CFAR1X]. Customize your R1 with other AR stocks and pistol grips and get ready for full-auto exhilaration.

## New! Full Auto AK Pistol

Enjoy classic AK style — now in pistol format — with this semi and full auto BB powerhouse. Dual CO<sub>2</sub> Powerlets fire 1400 BBs-per-minute at 430 fps from a 28-round removable, spring-fed magazine. With the added blowback action you'll feel the force of full auto as you let fly.

Model CAKPWX

## Full Auto A4-P Full Auto BB Pistol

Switch from semi to full auto with the Full Auto A4-P and get ready to show those tin cans who's the boss. This tactical BB air rifle flings an intense 1400-BBs-per-minute at a blistering 400 fps. Each comes with an AR-compatible pistol grip and buffer tube (with removable sleeve), plus a quad rail forearm for endless accessory mounting. Built-in blowback action pairs with the feel and functionality of a firearm for ultimate fun. The Full Auto A4-P features a unique muzzle end cap, a red dot sight, and 25-round drop magazine.

Model CFAA4PX

## Full Auto P1 Full Auto BB Pistol

Take it outside with this tactical air pistol capable of slinging BBs up to 400 fps. The Full Auto P1 features a full metal frame and slide that delivers the heft and feel of a firearm, and that's amplified by built-in blowback action. The P1 packs a removable 19-shot BB magazine with integrated housing for a 12-gram CO<sub>2</sub> Powerlet. An included rail-mounted laser and fixed front and rear notch sights have you all set for full-on backyard blasting.

Model CFAMP1L

Model PFAM9B (without laser)

## THE CHILDREN OF FALLEN PATRIOTS FOUNDATION

provides college scholarships and educational counseling to military children who have lost a parent in the line of duty. They are dedicated to serving the families of service members from all branches of the armed forces who have died as a result of combat casualties, military training accidents, service-related illnesses, suicide, as well as other duty-related deaths as ruled by the Department of Veterans Affairs.

Crosman loves this and would like to help, so we've developed this special Full Auto R1 Fallen Patriots Edition, and we're donating a portion of the proceeds to the CFPF. To find out more about the great things the foundation is doing at [fallenpatriots.org](http://fallenpatriots.org)

## Full Auto R1 Fallen Patriots Edition

Model CFAR1FP

*The vision of Children of Fallen Patriots Foundation is to ensure that every child of a fallen patriot receives all necessary college funding. We believe a college education is the single most important gift we can give these children. We believe this is an important investment in the future of America. We believe this is one of the best ways we can honor those who died defending our country.*

## Semi-Auto SBR

### Semi-Auto BB Rifle

- Blowback action
- Powered by CO<sub>2</sub>
- Adjustable 6 position butt stock
- AR compatible pistol grip
- Quad Rail forearm for accessory mounting

# AIR POWERED SPORT

Crosman sport airguns take you from backyard plinking to Olympic glory. You can grab gold or perforate tin. It all depends on your pleasure!

The Challenger PCP  
three-position pellet rifle

brings big upgrades to the go-to choice  
for Sporter class competitors. If you have  
your eye on the podium, you're reaching for  
a Challenger—the rifle of choice of all U.S.  
Military JROTC programs.

Challenger® PCP  
PCP Powered, Three-Position,  
Competition Pellet Rifle

- .177 caliber
- Fully Adjustable synthetic "precision class style" stock
- Regulator for shot to shot consistency
- Swappable side lever cocking handle
- Two-stage match grade trigger with adjustable shoe
- 3000 PSI reservoir for 200+ more shots per fill
- Higher factory set Velocity 580 FPS
- Hooded front aperture sight and micro click adjustable diopter rear sight
- Floating Lothar Walther barrel
- Meets requirements of National Standard three-position air rifle

Model CH2021S

*Big congratulations to the 2022  
champions, the MCJROTC team  
from Nation Ford High School in  
Fort Mill South Carolina! That's  
Maya Cameron (left) and Isabelle  
Fetting (right), using, of course,  
Crosman Challenger PCPs to earn  
a winning score of 4440 - 159.*

### 760 Pumpmaster®

#### Variable Pump BB/Pellet Rifle

- Large reservoir capacity, holds 1,000 BBs

Dual Target Pack

2 pack of all-metal spinning targets. Two separate targets for engagement at different distances or locations. Includes extra set of stickers. For use with .177 and .22 caliber lead pellets only.

Recommended for .177 caliber up to 1200 fps and .22 caliber up to 950 fps

Model CS2LT

Visible Impact®  
14 in. Foam Range Targets

These polystyrene foam targets are designed to create highly-visible holes. Weather-resistant for year-round use with either airguns or firearms.

Model T14R-P

Indoor/Outdoor Target Trap

Triple layered curtains, backed by heavy-gauge galvanized steel plate.

Collapses flat for easy storage.

Includes 12 paper targets (two each of six designs).

Model 0853

*Not recommended for use with airguns that exceed 800 fps in .177 caliber, 650 fps in .20 caliber, 750 fps in .22 caliber, .25 caliber airguns or metal-tipped pellets. Pellet only.*

Spinning Target

All-metal spinning system features two target sizes. Folds up for easy storage and portability. Includes an extra set of stickers. For use with .177 and .22 caliber lead pellets only.

Recommended for .177 caliber up to 1200 fps and .22 caliber up to 950 fps.

Model CSLT

Resetting Field Target

Ideal for field target practice and backyard shooting. Hit the lower paddle to reset the kill zone target. For use with .177 and .22 caliber lead pellets only.

Model CSRT

Dueling Tree Airgun Target

*Feedback you can see and hear*

Easy to assemble, no tools needed

- Durable heavy duty steel constructions
- Six 3 mm steel plates that swing from side to side when hit, allowing you to compete against others or shoot by yourself all day.
- Helps you improve both your speed and accuracy with pellet rifles and pistols

Model CDTT
